

## Your voice is super important!

**Your ideas and actions can make the world a better place.**

- Do you encourage others to protect the environment?
- Have you written to someone in power about a topic you feel strongly about?
- Do you stand up for yourself and tell others how you are feeling?

When you talk about the changes you have made by taking a stand and using your voice, you show everyone how amazing kids like you can make a difference. Even the little things you do matter a lot! So, don't be shy – share your stories and let everyone know the awesome ways you're making the world a nicer place!

**Please use words and/or pictures to tell us about how you have used, or would like to use, your voice.**

### I have used, or would like to use my voice to...

- e.g
- Start an Eco Club at school.
  - Stop someone from bullying.
  - Ask the Head for a new uniform for my/our sports team.

**If you could tell the world one thing, what would it be?**
